In one application, he has requested for "Change of Supervisor" while in the other application, the request "Semester Drop" was cited. Both applications were exhaustively discussed in multiple rounds of DPPC meeting along with telephonic consent from the applicant. The student (Mr. Ashutosh Kumar Singh) and the co-guide (Dr. Dushyant Singh) were intimated about this arrangement and their consent was received through email.
- With respect to the other application dated 17-01-2018, the request to drop MTP (Phase I) under the ground of low CPI (6.35) is NOT recommended by DPPC. Hence, the question of repeating MTP Phase I does not arise.
- As the MTP supervisor has been changed, DPPC propose to reconstitute the examination committee for MTP Second phase examination (if required).

Annexure I

MTP Allotment Procedure (Effective from Academic Year 2018-2019)

- (1) The MTP coordinator will invite "broad project topics" from the faculty members and they will be circulated to the students.
- (2) The students will be asked to meet the faculty members based on their preferable topics.
- (3) Based on the mutual consent, the research supervisor will be decided for the student. All the students must submit the "MTP Consent Form" to the MTP coordinator with signatures (from both student and faculty member).
- (4) The MTP consent form will be prepared in line with "PhD supervisor selection form" in which the students must meet adequate number of faculty members (at least 4 to 5) and obtain their signatures while finalizing the probable MTP supervisor.
- (5) It is strongly recommended that all the faculty members must float at least three topics. Accordingly, they can give consent for supervising **maximum of THREE students**.
- (6) It is strongly suggested that faculty members should be very specific while floating the MTP title. To the best possible extent, key words/short abstract may be provided. **The topic title should not be "any topic from area of....." or "any topic of mutual interest" etc.**
- (7) Only **ONE consent form will be received for every student** and the same topic will be allotted to the student.
- (8) For variety of reasons (such as lack of number of topics, faculty members not willing to guide M.Tech students etc.), there are chances that some students will not get consent from the faculty members for their project topics. In such cases, **the MTP coordinator has the authority to allocate supervisors in consultation with "HOD, ME" for which upper limit may exceed 3.**
- (9) The MTP coordinator will invite the M.Tech topics during **the first week of October (in every Academic Year)** from the faculty members and the same will be circulated to the students **during last week of October**.
- (10) After circulation of M.Tech project topics, the students will be asked to meet with the faculty members and the "consent form (signed by probable supervisor and student)" should be submitted to MTP coordinator preferably **before the end-semester examination**.
- (11) The MTP coordinator will complete the rest of **allotment process preferably within the first week of December** (in every Academic Year). It will definitely help the students to opt for preferred electives before the "last date of course adjustment" that falls during 2nd/3rd week of subsequent month (January).
